## WINTERPARK

## About Us

Winter Park National Bank was created under one central concept: our client relationships are about more than deposits and transactions. We serve our community with personalized, attentive service instead of a "one-size-fits-all" approach. More than just a boutique operation, we aim to be the bank that remembers your name before your account number. With 40 years entrenched in the Central Florida community, our team can apply its extensive experience to meeting your specific banking needs.

Serving attorneys, doctors, CPAs, contractors and local small business entrepreneurs, we are inspired every day to be more than just a bank, but your bank. Community. Care. Conscience. These are the fundamentals of Winter Park National Bank.

NOTE: This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, and should not be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

## Overall CRA Rating

Institution's CRA Rating: This institution is rated Satisfactory. The lending test is rated: Satisfactory. The community development test is rated: Satisfactory.

The major factors that support this rating include:
The Lending Test rating is based on:

- Given the bank's size, capacity and other performance context factors, the lending test rating is based on a reasonable loan-to-deposit ratio, a substantial majority of loans originated in the bank's assessment area, excellent distribution of loans in low- and moderate-income geographies, and a reasonable distribution of loans among businesses of different sizes.

The Community Development Test rating is based on:

- The bank exhibits adequate responsiveness to community development needs through community development loans, qualified investments, and community development services, considering the bank's capacity, community needs and the availability of opportunities for community development in the bank's assessment area.

## Loan-to-Deposit Ratio

Considering the bank's size, financial condition, and credit needs of the assessment area, the bank's loan-todeposit ratio is reasonable.

The bank's level of lending, as reflected in the quarterly average loan-to-deposit (LTD) ratio as depicted in the table below, is reasonable given the bank's size and performance context factors. The bank's average LTD ratio since the preceding CRA evaluation (nine quarters starting in the December 31, 2019 through December 31, 2021, was 53.5 percent, ranging from a high of 64.6 percent in the fourth quarter of 2019 to a low of 41.5 percent in the fourth quarter of 2021. For the same period, WPNB's ratio was lower than the 72.5 percent average LTD ratio of eight similarly situated community banks with branch locations in or near the bank's assessment area. During 2020 and 2021, WPNB experienced significant increases in deposits associated with customers who received Small Business Administration (SBA) Paycheck Participation Program (PPP) loans, which resulted in a decline in the bank's LTD ratio. This increase in deposits negatively impacted the bank's LTD over the evaluation period.

## INTERMEDIATE SMALL BANK

| BANK NAME | Total Assets <br> $\left(\mathbf{0 0 0} \mathbf{s}^{*}\right.$ | Quarterly <br> Average <br> LTD Ratio <br> (\%) |
| :--- | :---: | :---: |

| Sunrise of Cocoa Beach | 373,745 | 75.0 |

*As of 12/31/2021

## Lending in Assessment Area

A substantial majority of the bank's loans are inside its assessment area.
The bank originated and purchased 93.3 percent of its total loans inside the bank's assessment area (AA) during the evaluation period. This analysis is performed at the bank, rather than the AA level. The 56 loans made inside the AA were factored into the lending test.

## Description of Institution

Winter Park National Bank (WPNB) is a locally owned, intrastate community bank located in Winter Park, Florida. The bank was chartered on August 1, 2017 and until recently operated out of the one office. The bank opened an additional office in Longwood, Florida on August 1, 2022.

As of December 31, 2022, the bank reported total assets of $\$ 714$ million and tier one capital of $\$ 51.6$ million. For the same period, net loans of $\$ 377.3$ million accounted for 52.8 percent of total assets. During the evaluation period, business loans were the primary loan product representing 71.0 percent of the total loan

Office of the
Comptroller of the Currency INTERMEDIATE SMALL BANK
Washington, DC 20219
portfolio with the remaining 29.0 percent secured by residential real estate, mainly home equity lines of credit loans.

The bank offers an array of loan products and services typical for community banks. Banking services include debit cards, online and mobile banking at no additional cost. The bank does not have automated teller machines (ATMs) at the bank branches; however, customers can use Publix ATMs to access funds at no charge. Both office locations have a drive-thru facility.

In response to COVID-19, SBA PPP loans under the CARES Act were offered to small businesses throughout the county. SBA's PPP was designed to maintain and stabilize small businesses during the pandemic. Although not an SBA Lender, WPNB's participation in the first round (2020) and the 2nd round (2021) resulted in originating 292 PPP loans totaling $\$ 41.6$ million, which provided much needed funds to support 170 struggling business during the pandemic. Positive consideration for their response to the pandemic is reflected in respective lending analysis and community development performance.

There are no legal, financial, or other factors impeding the bank's ability to help meet the needs of its AA. The bank received a Satisfactory rating in its previous CRA evaluation dated June 8, 2020.

## Scope of the Evaluation

## Evaluation Period/Products Evaluated

This Performance Evaluation (PE) assesses the bank's record of meeting the credit needs of the community in which it operates. We evaluated the bank's performance under the Intermediate Small Bank Community Reinvestment Act (CRA) procedures, which includes a lending test and a community development (CD) test. The lending test evaluates the bank's record of meeting the credit needs of the AA through its lending activities. The community development test evaluates the bank's responsiveness to community credit needs in its AA with CD loans, qualified investments, and CD services.

The evaluation period for the lending test covers the period from January 1, 2020 through December 31, 2021. The evaluation period for community development loans, investments, and services begins January 1, 2020 through December 31, 2022.

The bank provided a report with data of all loans made during the evaluation period. A total of 765 loans totaling $\$ 450$ million were made in 2020 and 2021 of which 76.5 percent was centered in business loans with the remaining consisting of home equity loan products. Based on the loan origination report and WPNB's lending strategy, we determined the primary loan products and focus for the evaluation period is business lending. Our conclusions are based on an analysis of a random sample of business loans originated during the evaluation period. We used this same random sample for all lending performance tests.

## INTERMEDIATE SMALL BANK

Washington, DC 20219

## Selection of Areas for Full-Scope Review

The bank operates two offices within one assessment area located in the State of Florida. The State of Florida was selected for a full-scope review.

## Ratings

The bank's overall rating is based on the lending performance in the Orange and Seminole Counties assessment area.

## Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 CFR 25.28(c), in determining a national bank's or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any AA by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Consumer Financial Protection Bureau, as applicable.

The OCC has not identified that this institution (or any affiliate whose loans have been considered as part of the institution's lending performance) has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by, or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

Office of the
Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219

## State Rating

## State of Florida

## CRA rating for the State of Florida ${ }^{1}$ : Satisfactory.

The Lending Test is rated: Satisfactory.
The Community Development Test is rated: Satisfactory.
The major factors that support this rating include:

- Given the bank's size, capacity and other performance context factors, the lending test rating is based on a reasonable loan-to-deposit ratio, a substantial majority of loans originated in the bank's AA, excellent distribution of loans in low- and moderate-income geographies, and a reasonable distribution of loans among businesses of different sizes.
- The bank exhibits adequate responsiveness to community development needs through community development loans, qualified investments, and community development services, considering the bank's capacity, community needs and the availability of opportunities for community development in the bank's assessment area.

## Description of Institution's Operations in Florida

WPNB operates two full-service branches in the state, one in Winter Park, FL and one in Longwood, FL which recently opened in August 2022. Both offer drive-up facilities but have no ATM access. However, customers are not charged for any ATM cash withdrawals conducted at any Publix Presto ATM locations. The bank offers an array of loan products and services typical for a small community bank. Banking services include alterative banking to include debit card services and online and mobile banking at no cost. The bank provides a variety of lending programs, but generally the primary focus has been in commercial lending.

WPNB's assessment area consists of Orange and Seminole Counties and is part of the Orlando-KissimmeeSanford Metropolitan Statistical Area. The bank has delineated as its AA all census tracts (CT) in the counties where the bank offices are located. The AA meets the legal requirements of the CRA and does not arbitrarily exclude any low-and moderate-income geographies.

There is strong competition in the bank's AA for financial services from other local community banks well as regional and larger institutions that have a nationwide footprint. Based on FDIC's June 30, 2021 deposit market share report for the assessment area, WPNB ranks $16^{\text {th }}$ out of 37 financial institutions operating in the AA, with a 0.9 percent deposit percent market share. There

[^13]Comptroller of the Currency INTERMEDIATE SMALL BANK
Washington, DC 20219
are 372 banking branches in the AA.
As part of this evaluation, the OCC consulted two nonprofit organizations operating in the AA, both economic development organizations, whose mission is to attract new and diversified businesses and retain those existing businesses with assistance and support. Critical credit needs identified by these nonprofits for this evaluation period include assisting small businesses in obtaining seed capital, venture, debt, and equity capital as well as providing financial expertise, especially to those start-ups and young businesses.

Office of the
Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219
According to the 2015 ACS Census Data, the AA consists of 293 CTs, of which 12 (4.1 percent) are lowincome, 80 ( 27.3 percent) are moderate-income, 95 ( 32.4 percent) are middle-income, 105 ( 35.9 percent) are upper-income, and one ( 0.3 percent) has not been assigned an income classification. The percentage of families living below the poverty level is 12.2 percent. Competition for financial services from larger financial institutions is strong in the AA.

The economy during the evaluation period was significantly impacted by the COVID-19 pandemic which started in March 2020. Lockdowns were imposed on certain types of businesses and on April 1, 2020, a stay-at-home order was issued for the entire state. The lockdowns led to many businesses and organizations being closed for varied periods of time. Orlando, being known as the top family vacation spot with global attractions to include Walt Disney World and Universal Orlando, is driven by its heavy reliance on the tourism industry and was the most impacted sector due to the COVID-19 pandemic. The area experienced the highest unemployment rates in the country during 2020 with the month of May unemployment rate peaking at 21.3 percent and averaging 10.2 percent for the year.

According to Moody's Analytics, although the tourism-related leisure and hospitality industry was and continued to be the most impacted sector during the evaluation period due to the pandemic, the area quickly rebounded with the return of domestic leisure travelers, infrastructure construction projects and migration of young skilled workers to support healthcare and other professional and business services jobs. As of December 31, 2021, the U.S. Bureau of Labor Statistics reported the unemployment rate for the Orlando-KissimmeeSanford MSA was 3.4 percent which compares favorably to the state and national rates of 3.6 percent and 3.9 percent, respectively. In 2022, unemployment rates continued to decline with a 2.3 percent rate as of December, which is lower than the state rate of 2.7 percent and much lower than the national unemployment rate of 3.5 percent.

The AA is home to a number of key and diverse industry sectors to include Travel \& Tourism, Life Sciences and Health Care Resources, Digital Media and Modeling, Simulation \& Training Resources. Top employers include Walt Disney World Resort, Advent Health System, Universal Orlando, and Orlando Health.

Affordable housing continues to be a challenge in the AA. Home prices and rents increased significantly during the evaluation period. According to the National Low Income Housing Coalition, the bank's AA ranked second worst in the country when it comes to the affordable housing shortage. It was also reported, rents have risen an average of $30 \%$ resulting in record evictions. Refer to Appendix A for a listing of the bank's AA.

## Scope of Evaluation in Florida

The bank operates two offices in one AA (Orange and Seminole Counties) located in the State of Florida. The AA was selected for a full-scope review.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN FLORIDA

## LENDING TEST

The bank's performance under the Lending Test in Florida is rated Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's lending performance in the state of Florida is reasonable.
Distribution of Loans by Income Level of the Geography
The bank exhibits excellent geographic distribution of loans in the state.

## Small Loans to Businesses

Refer to Table Q in the state of the Florida section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

The bank did not originate loans to businesses located in low-income geographies. However, the opportunities are limited with only 1.4 percent of all small businesses located in low-income census tracts in the AA. The overall distribution of small business loans operating in moderate-income geographies exceeds the percentage of small businesses operating in moderate-income geographies in the AA and the overall aggregate distribution of small businesses reported by lenders required to report these types of loans (Large Bank CRA Data Collection and Reporting).

## Lending Gap Analysis

Loans made inside the AA are factored into the overall lending gap analysis of the geographic distribution of lending by income level of geography. Our review of the geographies that comprise the bank's AA and distribution of lending for small business loans did not reveal any unexplained conspicuous gaps.

## Distribution of Loans by Income Level of the Borrower

The bank exhibits a reasonable distribution of loans to individuals of different income levels and businesses, given the product lines offered by the bank.

Small Loans to Businesses

Office of the
Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219
Refer to Table R in the state of Florida section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

The proportion of small business loans made in the assessment area was somewhat lower than the proportion of small businesses operating in the assessment area (gross annual revenues of $\$ 1$ million or less) and exceeds the aggregate distribution of loans to small businesses operating in Orange and Seminole Counties reported by lenders subject to report these types of loans (Large Bank CRA Data Collection and Reporting).

Due to performance context factors discussed in the Description of Institution's Operations in Florida, the level of performance is considered reasonable as small business lending is very competitive with the high volume of banks in Orange and Seminole Counites all vying for the same small business loans. We also considered WPNB's significant volume of small loans to businesses made through its participation in the SBA Care's Act PPP program in 2020 and 2021. As previously noted, the bank made 292 PPP loans totaling $\$ 41.6$ million which provided much needed support for those local small businesses impacted by the pandemic.

## Responses to Complaints

There were no CRA related performance complaints received by the OCC or the bank.

## COMMUNITY DEVELOPMENT TEST

The bank's performance under the Community Development Test in the state of Florida is rated Satisfactory.

## Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank exhibits adequate responsiveness to community development needs in the state through community development loans, qualified investments, and community development services, as appropriate, considering the bank's capacity and the need and availability of such opportunities for community development in the bank's assessment area.

## Number and Amount of Community Development Loans

The Community Development Loans Table, shown below, sets forth the information and data used to evaluate the bank's level of CD lending. The table includes all CD loans, including multifamily loans that also qualify as CD loans.

Office of the
Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219

| Community Development Loans |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
| Assessment <br> Area | Total |  |  |  |
|  | $\#$ | \% of Total \# | $\$(000$ 's) | $\%$ of Total <br> $\$$ |
|  | 3 | 100.0 | 1,920 | 100.0 |

During the evaluation period (January 1, 2020 through December 31, 2022), WPNB made three (3) loans totaling $\$ 1.92$ million in the assessment area. The bank made two CD loans totaling $\$ 920$ thousand to support transitional housing for low to moderate income (LMI) individuals who are leaving substance abuse treatment facilities. One loan totaling $\$ 1.0$ million supported an organization that provides identify theft prevention programs to LMI senior citizens residing in assisted living facility located in the bank's AA. In addition, although not included in the table above, WPNB helped stabilize the local economy by making PPP loans to businesses that allowed them to retain employees and maintain operations during COVID-19.

## Number and Amount of Qualified Investments

| Qualified Investments |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Assessment <br> Area | Prior Period* |  | Current Period |  | Total |  |  |  | Unfunded Commitments |  |
|  | \# | \$(000's) | \# | \$(000's) | \# | \% of Total \# | \$(000's) | \% of Total \$ | \# | \$(000's) |
| Orange \& Seminole Counties | 0 | 0.0 | 23 | 1.220 | 23 | 100.0 | 1,220 | 100.0 | 0 | 0.0 |

WPNB made 23 investments totaling $\$ 1.22$ million and include a mortgage-backed security totaling $\$ 1.17$ million backed by loans to LMI borrowers residing in the bank's assessment area. The remaining 22 investments totaling $\$ 49$ thousand consist of donations made to nonprofit organizations serving LMI individuals, families, and at-risk youths by providing those with the most critical needs and basic services, affordable rental housing, youth programs, education for LMI students and legal assistance to low-income and disadvantaged individuals with obtaining legal identification documents needed for employment and residency. One qualifying CD donation went towards supporting a local community center located in a moderate-income geography in which many free services are offered and geared towards LMI individuals, particularly the use of computers and internet access.

## Extent to Which the Bank Provides Community Development Services

During the evaluation period, four staff members, including the CEO conducted an adequate number of CD services consistent with capacity and expertise to conduct such activities. WPNB provided financial expertise totaling 212 hours to five organizations that serve the assessment area. Nonprofit organizations

[^14]Office of the
Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219
served during the evaluation period include nonprofit organizations that predominately serve low- and moderate-income persons and broader economic development organization that engages in activities that promotes job creation, including for low-and moderate-income residents. One qualifying CD service activity performed during the COVID pandemic involved distributing personal protective masks to businesses throughout Orange County.

## Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

Affiliate: Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

Aggregate Lending (Aggt.): The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Census Tract (CT): A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. Census tracts nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances, Census tracts ideally contain about 4,000 people and 1,600 housing units.

Combined Statistical Area (CSA): A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

Community Development (CD): Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of $\$ 1$ million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middleincome geographies, or designated disaster areas.

Community Reinvestment Act (CRA): The statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan.

This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into 'male householder' (a family with a male householder' and no wife present) or 'female householder' (a family with a female householder and no husband present).

Full-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

Home Mortgage Loans: A closed-end mortgage loan or an open-end line of credit as these terms are defined under 12 CFR 1003.2, and that is not an excluded transaction under 12 CFR 1003.3(c)(1) through (c)(10) and (c)(13).

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Limited-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of investments, and branch distribution).

Low-Income Individual: Individual income that is less than 50 percent of the area median income.
Low Income Geography: A census tract with a median family income that is less than 50 percent.
Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Office of the
Comptroller of the Currency

## INTERMEDIATE SMALL BANK

Washington, DC 20219
Median Family Income (MFI): The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

Metropolitan Division: As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area: An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000 . The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

Multifamily: Refers to a residential structure that contains five or more units.
Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rating Area: A rated area is a state or multi-state metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multi-state metropolitan statistical area, the institution will receive a rating for the multi-state metropolitan statistical area.

Small Loan(s) to Business(es): A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original

Office of the Comptroller of the Currency

## INTERMEDIATE SMALL BANK

Washington, DC 20219
amounts of $\$ 1$ million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

Small Loan(s) to Farm(s): A loan included in 'loans to small farms' as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $\$ 500,000$ or less and are either secured by farmland or are classified as loans to finance agricultural production and other loans to farmers.

Tier 1 Capital: The total of common shareholders' equity, perpetual preferred shareholders' equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

Upper-Income: Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

Comptroller of the Currency
INTERMEDIATE SMALL BANK
Washington, DC 20219

## Appendix D: Tables of Performance Data

## Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the "bank" include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased are treated as originations; and (2) "aggregate" is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA-reporting lenders in the MMSA/assessment area. Deposit data are compiled by the FDIC and are available as of June $30^{\text {th }}$ of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:
Table Q. Assessment Area Distribution of Loans to Small Businesses by Income Category of the Geography - The percentage distribution of the number of small loans (less than or equal to $\$ 1$ million) to businesses that were originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of businesses (regardless of revenue size) in those geographies. Because arrogate small business data are not available for geographic areas smaller than counties, it may be necessary to compare bank loan data to aggregate data from geographic areas larger than the bank's assessment area.

Table R. Assessment Area Distribution of Loans to Small Businesses by Gross Annual Revenue - Compares the percentage distribution of the number of small loans (loans less than or equal to $\$ 1$ million) originated and purchased by the bank to businesses with revenues of $\$ 1$ million or less to: 1) the percentage distribution of businesses with revenues of greater than $\$ 1$ million; and 2) the percentage distribution of businesses for which revenues are not available. The table also presents aggregate peer small business data for the years the data is available.

The total loan amount presented in the tables for each assessment area may differ from the total loan amount reported in the aggregate table due to how the underlying loan data is rounded in each table.

Office of the
